MAN STEALS HORSE

Wednesday Last week John Petterson was fined 5pounds with the charge of stealing a horse. He eventually pleaded guilty to the charge the horse which was worth over 3pounds was not harmed or distressed in anyway

The owner of the horse whose name he preferred not to be mentioned was extremely displeased to wake up and find his horse had vanished. He was determined to find his the horse and when he had he complained that the sum of money that John had to pay was too low.

NEW FIRE ENGINE

Tuesday The first motorised fire engine will be used in Dunedin this year leaving the 1862 fire engine in its dust.

Dunedin will be the first settlement in the south island to test this new version. The new fire engine has electrical lights and a siren. The fire engine creator John Geisha says "making this has been like a dream come true" and he hopes Dunedin will avail from this creation.

Chief fireman, Gilbert Freeman says "all the men are really animated". Dunedin is really going to ameliorate from this comely invention. On Saturday the 27th day of February these fire engines will be on display at the Octagon o'clock plus there will be a lecture from John Geisha.

NEW ZEALAND BREEDING

The New Zealand Cow Breeders Association was formed in 1894 with the objective to change breeders breeding Hereford and to start them breeding dairy cows. But not all people agreed with this idea of breeding, And some people protested and it made it hard for the dairy farmers to reach there objective. So there was the dairy farmers and the Hereford farmers and the people behind them supporting which ever one they liked best. Nothing really changed until someone brought in a new type of cow named the Dutch belted and there fore every one just decided to have whichever one they decided to have and the farming industry stayed the same.

THE WIND.

The wind floats softly through the trees,

Gently touching the ground and breezing passed the seas.

The wind is beautiful,

Never take away the wind for it is simply magical.

The Escape from Worry

Give us a winding road, a sky full of white floating clouds, a river and a bridge over which to rumble, a lake, blue and inviting, among green hills, an hour's run to dinner, and the sense of power and control at the wheel of a Rambler—and we will have no thought of business cares.

With the

Rambler

there is added to the pleasure of touring the satisfaction of freedom from the worries of the road.

The Rambler Offset Crank-Shaft makes this car silently powerful, capable of running at forty or three miles an hour on high speed, and climbing any hill with gratifying ease.

The Rambler Spare Wheel saves the tiresome task of repairing and pumping up a tire, and can be substituted for the regular wheel within three minutes' time.

RAMBLER AUTOMOBILES, \$1,150 to \$2,500
